August, 2009

Greetings:

I am currently seeking career opportunities within law enforcement. I am seeking employment with a progressive and proactive agency.

I currently have over seven years experience in law enforcement. I began my career in West Texas for a mid-sized police department. The city in which I worked for had a population of 30,000, but had the same crime rate per capita as Chicago. While there, I achieved the rank of Corporal – 1<sup>st</sup> Class and served as a Field Training Officer, Intoxilyzer Operator, and a member of the SWAT team. A year ago I moved to the DFW area and began working at a University police department. I served as a patrolman as well as a detective.

I have obtained my Advance Certificate and Special Investigator Certificate from TCLEOSE and have over 2500 training hours. I am a certified post blast investigator, SFST certified, Reid Interview and Interrogation certified, and Drug Test Kit certified.

I believe in proactive and community based law enforcement. I am seeking to change agencies due to events and personnel changes within my current department that have made it very difficult to see my family and above all, difficult to regularly attend church services.

Please see my enclosed resume. Thank you for your time and consideration.

Sincerely,

J. Adam Binnix
