

Dear Sir or Madam,

At Albertsons, I was pharmacist-in-charge of several stores. As the supervisor, I was responsible for several quarterly pharmacy inventories. On one of those inventories, I generated \$38,000 in one quarter, receiving a compliment from my district supervisor.

Several pharmacy customers wrote in to give me compliments at these stores. I received two customer service awards, one from a regional supervisor.

One of my accomplishments at Walgreens was immunizing 200 customers in a particular flu season. I also compounded prescription recipies while I was in those stores.

You will note that my resume includes many skills that would benefit your pharmacy..

You'll like my resume,

Melinda Redpath
